

Wine and Solidarity Charity at the Wine Masterclasses of the 26th Merano WineFestivals

Seminars themed around wine, its cultivation areas and history together with tastings that are open to visitors and all for a charitable purpose - these are the Charity Masterclasses of the Merano WineFestival.

Merano, 7th Novembre 2017 - The most prestigious events at the 26th Merano WineFestival will take place from between the 11th and 13th November at the Hotel Terme in Merano - the Charity Wine Masterclasses, which combine the passion for and delight in the discovery of wine. The proceeds will go towards a development aid project that the Meraner missionary group plans to implement in Africa.

The seminars, which are focused on tasting, getting to know and learning something new, are also open to those who just wish to discover the world of wine for themselves. They are run by experts who will present the classics among the great vintages as well as other remarkable and lesser known wines. Each seminar lasts approximately 1.5 hours. There is a great deal to discover, from Trentino to Tuscany to Campania and the region of Il Vulture. But even beyond the Italian borders, the topics range from Champagne to the great Bordeaux wines, as well as wines produced along the 43rd degree of latitude, where some of the best cultivation areas in the world are now located. This is a unique opportunity to get in contact with the wine world and, at the same time, contribute to a good cause.

The entire seminar program can be found at meranowinefestival.com, where an uncomplicated ticket purchase can be made.
